

Protein Patty Recipe

- | | | |
|---|--|---|
| <ul style="list-style-type: none"> - 25# cane sugar (2 cups of sugar = 1 pound) - 2 quarts of cold water - 2 quarts apple cider vinegar - 2 cups vegetable oil (or to desired fat content) - A sprinkle of electrolyte powder
(About 1 tsp) <u>AgriLabs Vitamins & Electrolytes "Plus"</u> - About 1 T of citric acid - A splash of Mann Lake Pro health (1 Tbls.?) | <ul style="list-style-type: none"> 12.5# sugar 1 qt. H2O 1 qt. ACV 1cup veg. oil 1/2 tsp 1/2 Tbls 1/2 a splash | <ul style="list-style-type: none"> 6.25# sugar 1/2 qt.H2O 1/2 qt. ACV 1/2 cup veg. oil 1/4 tsp 1/4 tsp 1/4 splash |
|---|--|---|

Mix these ingredients in a 5 gal bucket (or appropriate sized container).
Mix well using a drill and paint mixer paddle.

Add:

- | | | |
|---|--|--|
| <ul style="list-style-type: none"> *About 15 cups Mann Lake Bee Pro
or Ultra Bee (Mix well) *Approximately 15 cups of Brewers Yeast | <ul style="list-style-type: none"> 7 cups 7 cups | <ul style="list-style-type: none"> 3.5 cups 3.5 cups |
|---|--|--|

(Dry ingredient measurements are approximate.)

Mix should be like peanut butter cookie dough. If it is not thick enough, just add more dry ingredients. Too thick and it will dry out in the hive. Too thin (wet) and it will drip through the frames. Consistency is important: Bees like it soft.

Place patty or glob on top of the frames on food grade wax paper
Feed mid to late August

Freezes well
